Md Saquib Anjum

COMPANY FOUNDER

FOUNDER & DIRECTOR | SFA CONSTRUCTION COMPANY

Md. Saquib Anjum is a highly experienced Civil Engineer with over 16 years of proven expertise in successfully delivering high-quality residential, commercial, and infrastructure projects.

With strong command over RCC works, project management, and cost control, he leads SFA Construction Company with a focused commitment to precision, safety, quality, and timely project execution.

His vision is clear to construct durable structures while building long-term trust and strong relationships with clients.

About the Company

SFA Construction Company is a professionally managed civil construction firm specializing in infrastructure development, RCC structures, external development works, and renovation projects. With over 4 years of experience, we deliver high-quality workmanship with a strong focus on safety, precision, and timely execution.

Our strength lies in quality workmanship, technical expertise, and strict adherence to safety and engineering standards. We follow systematic project planning, modern construction practices, and efficient resource management to ensure timely completion without compromising quality.

At SFA Construction Company, we believe in transparency, integrity, and long-term partnerships. Our goal is to provide reliable, cost-effective, and sustainable construction solutions that add lasting value to every project we undertake.

Core Services

1. Project Management

3. General Contracting

2. Design Build

4. Site Development

Project Expertise

SFA Construction Company possesses strong expertise in delivering diverse construction projects across industrial, commercial, and residential sectors. Our experience includes RCC structural works, infrastructure development, external development activities, renovation, structural strengthening, and complete site development solutions.

We are proficient in executing foundation work, concrete structures, road and drainage systems, water body construction, and utility infrastructure with precision and efficiency. Our team follows systematic planning, advanced construction techniques, and strict quality control procedures to ensure durability, safety, and long-term performance.

With a commitment to engineering excellence and timely execution, we consistently deliver projects that meet technical specifications, regulatory standards, and client expectations while maintaining cost-effectiveness and operational efficiency.

Our Approach

PLANNING

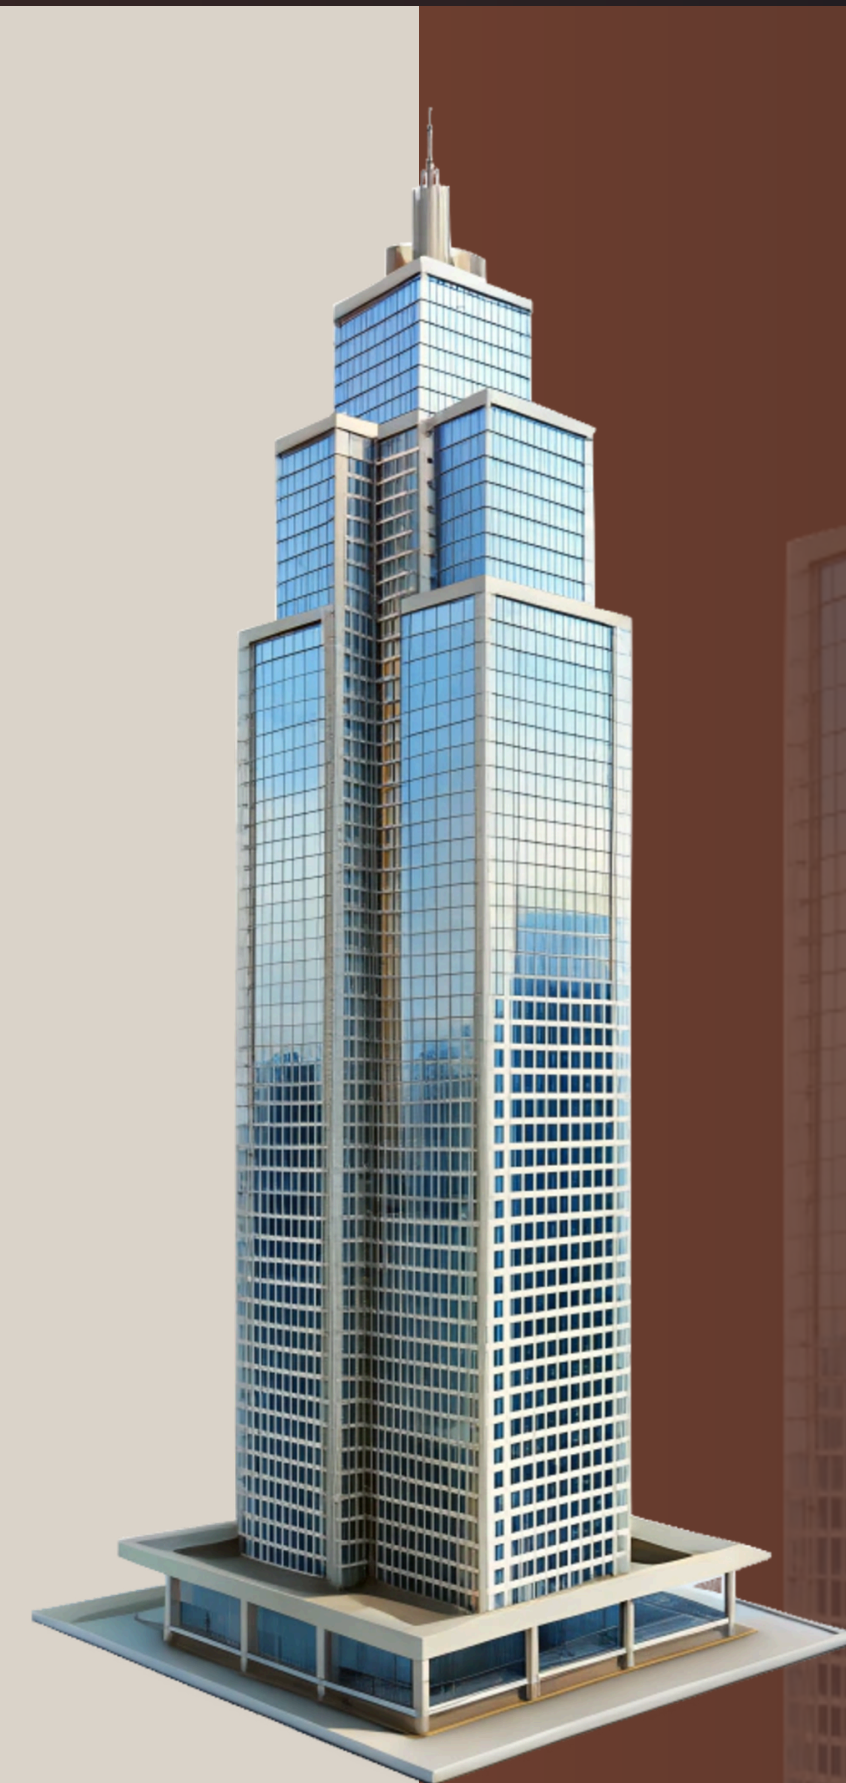

We begin with comprehensive site analysis, strategic project planning, and precise scheduling to ensure seamless execution and on-time delivery. Our structured approach minimizes risks and maximizes efficiency from day one.

EXECUTION

Our experienced team delivers superior construction quality through strict supervision, adherence to safety standards, and exceptional workmanship at every phase of the project lifecycle.

COLLABORATION

We work closely with clients, consultants, and on-site teams to ensure transparent communication, coordinated efforts, and successful project completion aligned with expectations.

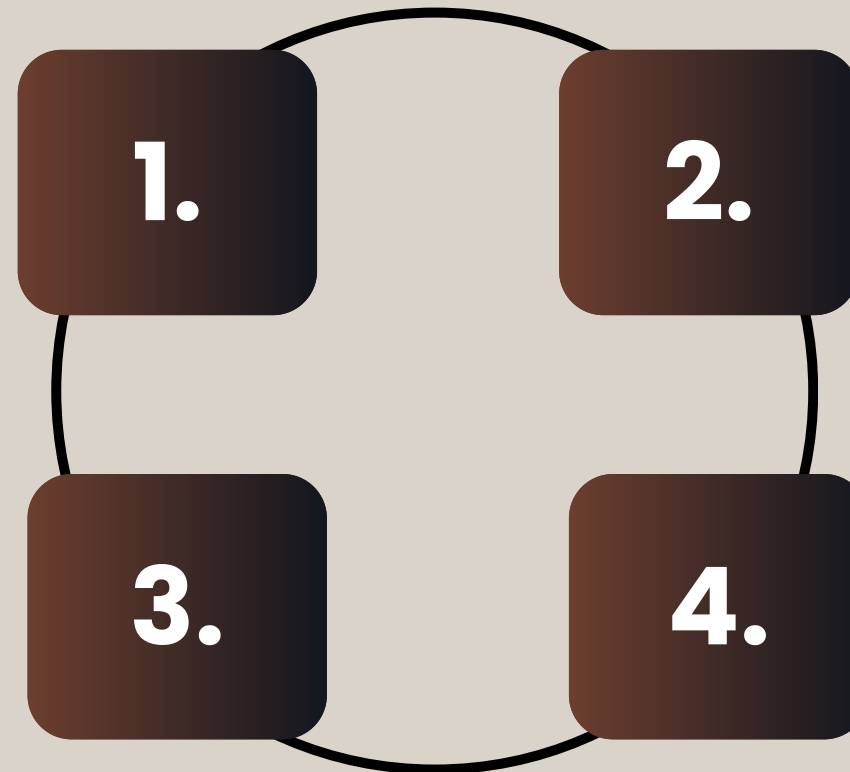

Quality Assurance

External Development Works

Complete site development including grading, paving, drainage, and landscaping delivered with precision and quality.

Pool & Water Features

Expert construction of pools and water features built for durability, safety, and aesthetic excellence.

Boundary Wall Construction

Reliable boundary wall construction ensuring strength, security, and long-term durability with quality workmanship.

Building Renovation Works

Renovation services including repairs and remodeling delivered with quality and timely execution.

Safety Standards

At SFA Construction Company, safety is a core value integrated into every stage of our operations. We strictly comply with all applicable safety regulations, industry standards, and statutory requirements to maintain a secure and accident-free work environment.

Our team follows comprehensive safety protocols, including proper use of personal protective equipment (PPE), regular site inspections, risk assessments, and continuous safety training programs. We implement preventive measures to minimize hazards and ensure compliance with all statutory and environmental requirements.

Innovative Solutions

1. Green Building

Innovative, Sustainable, Smart & Eco-Friendly Construction Solutions.

2. Smart Design

Smart, Innovative, Efficient, Sustainable & Future-Ready Design Solutions.

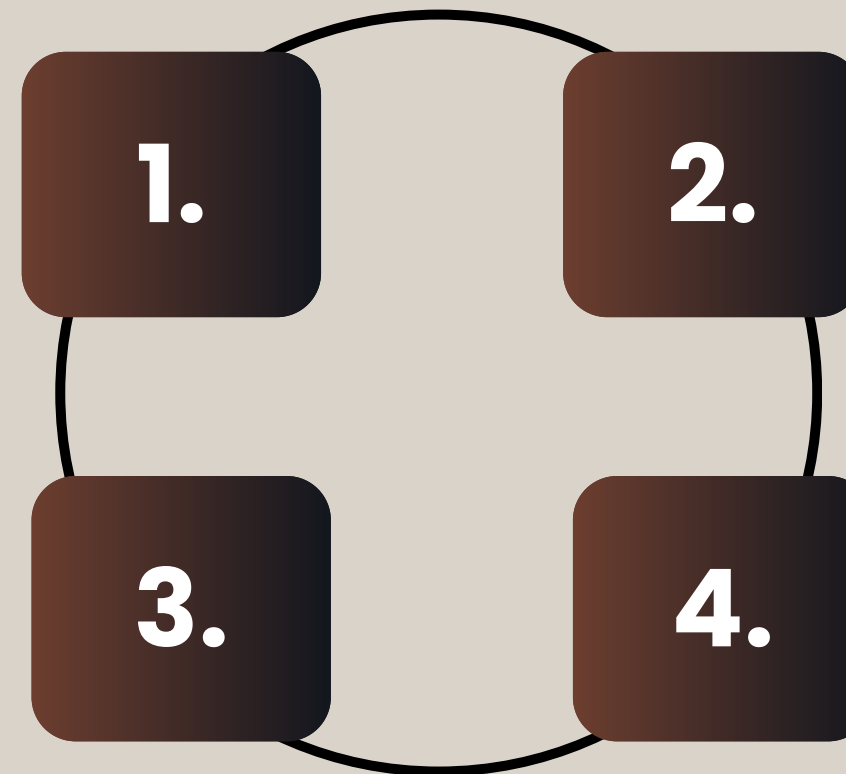

Infrastructure & Structural Services

Internal RCC Road Construction

Reliable RCC road construction delivering durable, smooth, and safe roadways with quality workmanship and timely execution.

Streetlight Foundation Works

Durable, secure, and precisely executed boundary wall construction with superior workmanship.

Foundation & Structural Works

Precision foundation and RCC structural works ensuring strength, stability, and long-term durability.

Barricading & Temporary Works

Secure barricading and temporary works ensuring site safety, controlled access, and smooth project execution.

Client Relations

OUR PHILOSOPHY

At SFA Construction, we believe that strong foundations are the basis for building lasting relationships. Our approach is rooted in integrity and transparency, ensuring that every project is handled with the highest level of professionalism and ethical business practices to maintain long-term trust.

OUR COMMITMENT

We prioritize client satisfaction by offering a personalized approach and clear communication throughout the construction process. By combining technical precision with a deep understanding of our clients' specific goals, we ensure high-quality results and dependable, on-schedule delivery.

Skilled Workforce

SFA Construction Company's success is driven by a skilled team of engineers, supervisors, and workers who work together with proper coordination to achieve timely and efficient project execution. The team includes experienced professionals with strong technical knowledge, such as an Electrical Engineer, Senior Civil Engineers, and Project Heads, many of whom bring between 11 to 20 years of individual industry experience. This dedicated workforce undergoes continuous training and strictly follows safety guidelines to maintain a secure and disciplined work environment at every project site. By combining this skilled manpower with high-quality materials, the company ensures exceptional workmanship, including strong RCC work and accurate finishing. Furthermore, under the leadership of founder Md. Saquib Anjum, who has over 16 years of industry excellence, the team ensures strict supervision and engineering precision at every stage of construction.

Our Projects

Amrita Hospital

Successfully executed internal RCC road projects for Amrita Hospital, delivering durable and safe road infrastructure with quality workmanship and timely completion.

Mansha - Vega Street

Our portfolio includes boundary walls, electrical pole foundations, RCC planters, swimming pools, and barricading works delivered with technical expertise, superior materials, and a strong commitment to quality, safety, and durability.

SOHA DEVELOPERS PVT LTD

We have successfully executed STP tank projects with engineering precision and superior quality standards, ensuring long lasting structural durability, efficient wastewater treatment, and strict compliance with safety and environmental regulations.

NS Associate Pvt Ltd.

Our expertise in SCO construction ensures the development of well-planned, durable, and visually appealing structures, delivered with quality craftsmanship and strict adherence to project timelines.

Yantrik Automation Pvt Ltd

We deliver industrial renovation solutions that enhance performance, safety, and appearance, ensuring precision execution, superior quality, and on-schedule completion.

Market Presence

SFA Construction Company has established a strong market presence as a professionally managed civil construction firm with over four years of proven experience in the industry. The company has successfully executed a diverse range of projects across multiple sectors, including industrial, commercial, and residential. Their presence is highlighted through collaborations with reputed clients such as Amrita Hospital in Faridabad, Soha Developers, Mansha - Vega Street, NS Associate Pvt Ltd., and Yantrik Automation Pvt Ltd.

The firm's market reach is further supported by strong cross-sector partnerships and a network of trusted long-term vendors, ensuring regulatory compliance and efficient resource management. Headquartered in Okhla, New Delhi, SFA Construction continues to grow its footprint through a combination of engineering precision, a commitment to safety, and a track record of delivering durable infrastructure solutions that earn repeat business from its clients.

1. Global Projects

2. Local Partnerships

3. Regional Expansion

4. Industry Recognition

Our Working Plan

1.

Client Consultation & Requirement Analysis

We understand the client's requirements, budget, and timeline to ensure clear project planning from the start.

2.

Planning & Design Coordination

We prepare detailed plans and schedules while ensuring safety and quality standards.
We coordinate with all stakeholders for smooth and accurate execution.

3.

Project Execution & Quality Control

We deliver projects on schedule with thorough quality checks and final inspections, ensuring complete client satisfaction.

Sustainability Goals

1.

Eco Materials

Use of high-quality, durable materials and superior RCC to ensure long-lasting, sustainable structures.

2.

Waste Reduction

Smart planning and modern techniques to minimize material wastage and improve efficiency.

3.

Renewable Energy

Focus on environmental compliance through projects like STP (Sewage Treatment Plants) for water recycling.

Technology Use

- **Modern Techniques:** The company adopts modern construction techniques and smart planning methods to improve project efficiency and reduce material wastage.
- **Engineering Precision:** High technical precision is applied to all specialized projects, including machine and chimney foundations, RCC structures, and complex structural frameworks.
- **Advanced Infrastructure:** They utilize advanced engineering for specific environmental and structural projects, such as STP (Sewage Treatment Plant) tanks and high-quality water body constructions.
- **Structural Expertise:** Their work includes specialized structural engineering services like excavation, column and beam installation, and the development of durable structural frameworks according to approved industry standards.
- **Digital Planning:** The "Working Plan" involves detailed design coordination and accurate scheduling to ensure smooth technical execution across industrial and residential sectors.

Commitment To Excellence

EXPERIENCED PROFESSIONALS

Our team includes experienced engineers and supervisors with strong technical knowledge to ensure quality execution and timely delivery.

DEDICATED WORKFORCE

We have a skilled and dedicated workforce committed to delivering strong workmanship, efficient site coordination, and reliable results.

CONTINUOUS TRAINING

We regularly train our staff to follow modern construction methods, quality standards, and best practices for improved performance.

SAFETY-FOCUSED

Safety is our priority. We follow strict safety guidelines to ensure a secure work environment for our team and project sites.

Our Team

Matiur Rahman
Project head
Experience 15 years

Mohd Shamshad
Senior Civil Engineer (Project)
Experience 11 years

Er. Aamir Ahmad Ansari
Electrical Engineer
Experience 11 years

Imran Akhtar
Admin & HR Head
Experience 20 years

Our Team is driven by expertise, dedication, and a results-oriented approach. Backed by years of industry experience across engineering and management, we work collaboratively to ensure precision, innovation, and successful project execution.

Partnership Network

1.

Trusted Suppliers

Ensuring consistent quality and timely material delivery.

2.

Strong Investors

Providing financial strength and long-term stability.

3.

Industry Alliances

Building strategic partnerships for growth and innovation.

4.

Government Support

Backed by compliance, approvals, and institutional trust.

Trusted Collaborations

Strategic partnerships with industry leaders, consultants, and government authorities enable us to deliver reliable, compliant, and high-performance construction solutions. Our collaborative approach ensures transparency, efficiency, and long-term project success.

- **Key Highlights:**

Strong cross-sector partnerships

Regulatory compliance coordination

Trusted long-term vendors

A construction site at sunset. The sky is filled with golden, glowing clouds. In the foreground, a worker in silhouette is pulling a rope attached to a large, dark rectangular object being lowered by a crane. Another worker is visible in the background. Several cranes are positioned around the site. The sun is a bright white circle on the horizon, partially obscured by the crane's structure.

THANK YOU.
